PROFESSION

I am qualified business Analyst with my diploma in Information Communication Technology. I am looking for job if not in my specific field, I will be happy to take that position and doing my best in it. With my ability to manage paperwork and good communication skill, I can be best assets in the business. I can do any work that require physical strength and job that require critical thinking.

EXPIRIANCE

I have managed to work with my team in school project where we upgraded the Checkers sixty60 App and do migration to their websites. I also did group project with my team where we transfer Star Fish Chemicals (Pty) Ltd manual system to electronic system specifically their Inventory system and Social Media Platforms. I am also a director of Evangelical Lutheran Church in Southern Africa (ELCSASO) in Durban University of Technology. I was also trained to know the introduction of Cybersecurity and Cybersecurity Essentials from Commercial and Industrial Security Corporation(CISCO). Also attended the Young Leader Academy program that certified me with Leadership and workplace readiness training certificate. I was also tasked to do digital video for first year's orientation.
